

SpectroCOLD

 Datasheet

In-fridge Unit

SKU: SCTHL-01

Wireless temperature, humidity and light measuring device

Key Features

- Bluetooth Low Energy (BLE) compatible with up to 15 meters range in open space
- Long battery life time (> 5 years) on 2x AA batteries
- Easy installation with industrial tape
- Remote configuration and firmware update
- High accuracy digital sensors: Temperature, humidity, and ambient light

Technical Specifications

Link type	Bluetooth low energy (BLE)4.2 and 5
Temperature range	-40 to +60°C
Temperature accuracy	+/-0.2°C
Humidity range	0 to 100%RH
Humidity accuracy	+/-1.8%RH
Light range	1 to 65535lx
Light accuracy	1lx
Power supply	2x AA 1.5V Primary cells
Dimensions	60x58x28mm [LxWxH]
Battery life	> 5 years
