

SpectroCOLD

 Datasheet

Door Unit

SKU: SCDS-01

Wireless magnetic door sensing device

Key Features

- Bluetooth Low Energy (BLE) compatible with up to 15 meters range in open space
- Long battery life time (> 2 years) on 2x AAA batteries
- Easy installation with industrial tape
- Remote configuration and firmware update
- Best in class silicon Hall Effect sensor technology

Technical Specifications

| | |
|---------------------|-------------------------------------|
| Link type | Bluetooth low energy (BLE)4.2 and 5 |
| Temperature range | -40 to +60°C |
| Magnetic Threshold | 9.5 mT, Medium Sensitivity |
| Power supply | 2x AAA 1.5V Primary cells |
| Dimensions | 72x42x23mm [LxWxH] |
| Battery life | > 2 years |
| Enclosure IP rating | IP65 |
