

SpectroCOLD

 Datasheet

Compressor Health Unit

SKU: SCCH-01

Wired sensing device for measuring compressor vibrations, temperature and AC current

Key Features

- Real time monitoring of compressor's temperature, vibrations, and AC current.
- None intrusive and easy installation.
- Works with varieties of fridge compressors.

Technical Specifications

Link type	Wired – RS232
Temperature range	-40 to +85°C
Temperature accuracy	+/-2°C
Vibration sensitivity range	±2g, ±4g, ±8g modes
AC current range	0 to 100A
Dimensions	41x41x20mm [LxWxH]
Enclosure IP rating	IP65
